Dear New Members,

If want to learn more about the frequency music and how to purchase it go to the Purchase Page.

You can listen to the songs playing on the main page to get an idea of what level of frequencies that you resonate to. The song Breathe Magic is playing. That song is from the Cosmic Consciousness album. The songs on that album were all sung through me by my Aqua Farie and Cosmic Dolphin families. The words and the frequencies of consciousness came directly from them through me. The words were not written or practiced. The songs are not written anywhere. It is just pure channeled singing. All of the albums are channeled from higher dimensions. I always connect with the Elohim of Hearing and ask to have my consciousness connected to what ever source of information that I need. And it always comes through frequencies. Sometimes words come with the frequencies. But, I'm totally unconscious of the words until I hear them later on the recording myself. Sometimes it is hard to understand the words because they are flowing from the 14th dimension into my ears and out my mouth. I have no way of re-editing after I record. If I did that, it would just be a song sung by me.

Below is a description of the COMPLETE list of the Music Albums and Meditation Albums and a Purchase LINK is beside each description if you want to purchase a CD album or MP3 album download of the album.
